

Airline Organisational Solutions

Airline management is under constant pressure to review its organisation to ensure that it remains at its most efficient.

A fresh look into the organisation by experienced and operational managers can provide airline management with an alternative and unbiased view.

Reliance Aerospace Solutions (Relaer) has reviewed organisations and performed turnarounds in airlines.

Airline Management

Relaer has provided a CEO, from its own staff, to successfully turnaround an airline.

Airline Operational Reviews

Relaer has reviewed an airline's Performance Engineering department and provided advice on the organisation as well as Cost Index and Fuel Tankering.

Performed Operational and Safety audits.

Airline Technical Organisation Review

Relaer has performed an analysis of an airline's Technical Division with a review of staffing and cost levels and decisions on 'make or buy'.

Airline Hangar Efficiency Review

Relaer has provided an airline advice on how to improve its hangar production efficiency with a view to becoming an MRO provider.

Airline Cost Reduction

Relaer has participated in reviewing the synergies between several airlines belonging to the same group with a view to reduce costs in all areas of operation, including ground handling services agreements, catering etc...

TUfly is constantly seeking for means of cost, quality and reliability improvements. Sometimes you need an external partner to discuss pros and cons and to confirm that you are still on track. Therefore we hired the services of Reliance Aerospace Solutions to perform 2 projects. The first project consisted of reviewing the organisational structure of the Technical Division and the second consisted on the optimisation of the structure. The projects were accomplished in a professional and timely manner and indicated a good knowledge and understanding of the operation of a technical division in an airline. The reports and presentations were well prepared and easy to understand. At the end it gave us a profound idea on how to continue with the Technical Division at TUfly.

Thanks a lot for all the good discussions we had.

Claus-Peter Suelflow
Director Technical Services
TUfly
